Project Brief

This recently new hotel had no previous lighting supplier. The hotels owners were looking for a suitable solution that would fit in with the quality and luxury feel of the building, giving guests a feeling of being in a beautiful and private resort. They valued not just the quality of the product, but also the brand and the quality of the supplier, where trust and good service are considered paramount. The customer tested many products and felt that the Toshiba E-Core NEW 6W LED Wide Distribution Clear Candle SES (E14) 2700K warm white dimmable gave the look they was looking for.

“We are delighted not only with the product but also with the level of service we received from Truelux” Owner, The San Giovanni

Benefits

This brand new hotel straight away recognised the key benefits of them using LED lights compared to traditional lighting:

- Low energy
- Low maintenance
- Lux Level
- Colour temperature
- Quality brand throughout the hotel
