

Case Study: The Galleria Executive Offices

Details

Location: Abu Dhabi

Sector: Commercial

Duration: 12 Weeks

Type: FF&E procurement

Project Brief

Truelux Interiors was just finishing project managing FF&E procurement for The Galleria Mall after this was complete the team was asked to procure all FF&E for the 4 floors of executive offices needed by the mall staff. No interior designer was assigned to the project and the only information handed over was a CAD layout of the spaces along with a brief description of the amount of work stations that were required. The role included:

- Shortlisting vendors for tender through arranging sample presentations at showrooms around the UAE
- Working with suppliers to develop multiple layouts to suit the needs of the client
- Tendering the project and making supplier recommendations
- Overseeing the procurement process to ensure all payments were made and received within the project time-frame.
- Tracking manufacturing, delivery and install.

Benefits

The main benefit to the client on this project was the ability of Truelux to be able to perform the ID role and prevent them having to employ someone to specify the products and develop furniture plans etc. Through Truelux taking on this role the client saved time and resources and ensured the project was completed efficiently.
